Charles Grow

Charles Grow, aged 48 years, passed away at the home of his wife's brother in his native county of Appomattox on September 9 of typhoid fever. When a young man he professed religion and united with the Methodist church. Twenty years ago he married Miss Alice Megginson and during those years they lived most happily together, sharing equally life's joys and sorrows. One son, Julian, and one daughter, Florence, and a fond wife are left to mourn the loss of a devoted husband and father. In disposition Charlie Grow was cheerful, affectionate, kind, patient and generous.

It seems mysterious that he should be called from his earthly home to that one "that is fairer than day;" but our heavenly Father, "who is too wise to err and too good to be unkind," had need of him. And though sad and lonely for his devoted wife and children, yet there is great comfort to them to know that he is safe in that blessed Home, and will be "watching and waiting" for them and the other loved ones.

Charlie Grow was a good man; we will miss him; and it is a pleasure to think of his many good qualities.

Funeral services were conducted at the grave by Rev. Gordon, assisted by Rev. Rice. The pall bearers were four brothers of the deceased. Several sweet hymns were sung by a quartet and the grave was covered with beautiful flowers.

May God's richest blessings and sweetest comfort be given the bereft, and may heaven seem nearer to them because he is there. J.

Lynchburg Fair and Races

Horse racing, the sport of kings, can be enjoyed but once a year in this section and will be a feature of the Lynchburg Fair, September 28, 29, 30 and October 1. Four thousand dollars is offered for harness races and it is expected there will be running races also. In between the heats will be sandwiched as many free acts as are generally shown at two fairs, accompanied by Pistorio's Washington band. Fireworks at night with daily balloon ascensions make up a program of entertainment hard to beat. Rabin and Cherry, the carnival leaders of America, will bring a midway to Lynchburg in their own train of 30 cars. Entries now being received for exhibits. Write to Secretary Lovely for premium list. Reduced rates on all railroads. State Tournament October 1.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

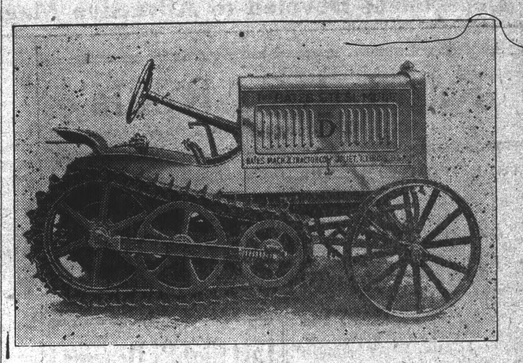
APPOMATTOX HARDWARE COMPANY

Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There is'nt a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
